

Message from the Vice Chair

“At the POWER TO GIVE Foundation, we endeavor to implement cutting edge fundraising as a means of sustainable funding to ensure ongoing youth leadership and academic programming.”

Strong and transparent governance as concepts do not inspire our partners, donors, or the community we serve, nor do they appeal to emotions as our youth development achievements do. Nevertheless, good governance is one of our strengths and is crucial to our success as an organization.

Our dedication to effective and efficient governance allows us to engage long-term relationships with private and public donors that support our mission and programs. As our experience has shown, strong governance is the key to sustainability. Transparency and a dedication to our partners has allowed all of our programs, from The POWER TO FIGHT campaign to the Boys and Girls Partnership, to go from vision to reality.

From our beginning, we have engaged in coalition building with our partner organizations, donors, and volunteers to emphasize and instill our principles of good governance. Our experiences mandate that we assure our partners of our effectiveness and our mission which we realize will ultimately garner trust and long term relationships. As our valued partnerships demonstrate, strong governance and strong management of finances and programs are the keys to successful team building.

In our year of service, The POWER TO GIVE Foundation has strived to become the leader in developing, conceptualizing, and sharing creative methods to provide academic and athletic access and shape future leaders. From our establishment of the Brand Ambassadors program, the Power To Fight initiative, and the Boys and Girls Club partnership, we leverage public support with private dollars. The POWER TO GIVE Foundation has always sought to maximize our donors’ generosity with the greatest benefits to the communities we serve.

Through our donors, partners, and volunteers, it is this behind-the-scenes work and planning that ultimately leads to the successful programs and initiatives we applaud. Therefore, we remain grateful to our supporters who understand the investment it takes to stay ahead of the challenges of today’s youth. In that vein, we pledge to always value the sacrifice our supporters and volunteers make to enable our efforts to continue.

Gratefully,

Dr. Frederick Brown
Vice President

*Dr. Brown is instrumental in all phases of program development and organizational planning. He has more than 15 years of combined corporate and Non Profit experience. He earned his Doctorate of Pharmacy degree from the Florida A&M College of Pharmacy and Pharmaceutical Sciences.
